IMPACT REPORT

2015-16

Dear Friends,

Greetings from DEHAT family! Yet another year got passed away and here I am, writing the message again with a bunch of new happenings, ups and downs. In 2015-16, we did not expand any of our projects but rather focused on the amalgamation and sustainability model of each initiative.

Cut to the present, our move towards rights-based agenda means that we now and have always been focusing on empowering communities towards participating in social and political discourses, influencing the government to focus on economic development in remote areas and build the capacities of the poor. Simply translated, we don't construct infrastructures anymore; we give our best to enable the community to demand the same from the respected authorities.

We always have been confronted with the question whether our current work would have as much of an impact as our work had in the past (refer to the timeline next to this page).

We think yes, absolutely and that you can witness while visiting our intervention areas and having a thorough look into the report.

Working in the core of hardships and challenges brings an utmost satisfaction to each of us at DEHAT and that is because whatever we do, from helping the parent's to secure their livelihoods through organic food security to empowering community and children to get equal opportunities as a citizen we ensure lasting impact only to the future of that family by securing their today uncompromisingly.

The task of comprehensive rural development is one that presents a mountain of challenges all at once, as each piece of the solution overlaps with and strengthens the others. As we continue our work for an empowered, and egalitarian society, time has now come to pause and reflect on all we have managed to achieve, as well as on all that remains to be done. In this 16th Annual Report, we are proud to present our accomplishments for the year 2015-16.

Most exciting part of the year was that our community leaders like Bhanmati Ji won #100WomenAchievers award from the Honorable president of India and our Girl Child Parliament's Leader Rekha has won Uttar Pradesh's gallantry award which is known as 'Rani Lakshmibai Veerta Samman' from the honorable Chief Minister of Uttar Pradesh. Apart from this, Chief Minister of Uttar Pradesh has declared DEHAT as Social Enterprise of the Year 2015 and our work has been Corporate Social Responsibility project has been recognized internationally at World CSR Congress 2015 edition.

More than 230 girl champs have qualified 5th grade exam and now ready to sign-up for the higher classes and other better options, 26 girls from the Bravo Girls Initiative are done with their matriculation with the highest score of 86%, hundreds of missing children has been

reconnected with their families and homes, thousands of farmers are now having an economic and food security.

These new happenings, and ventures that continue from past years, all support the guiding philosophy of DEHAT-one that found its beginnings in a group of young activists seeking betterment for Tharu tribal forest villagers, and that continues today as we work tirelessly on behalf of the deprived and underprivileged. We firmly believe that sustainable development can only take place when rural communities are empowered to take an active part in their own development. Long-term prosperity cannot depend on aid and expertise from the outside; it must originate from local masses standing up with the knowledge and power to ensure the realization of their rights, for themselves and for their children.

Children, truly, are the center of this mission. They are not only our most vulnerable members of society today; they are the inheritors and the future of that society in years to come. Only when we can ensure the survival, development, protection, and full participation of all children can we hope to make meaningful development happen in rural India. Our achievements and progress rest on the actions of many; our unity is what makes us strong.

For their dedication and commitment, we want to thank our social activists and volunteers across all our programmes and initiatives. For their support and guidance, we want to thank our donor agencies, partner organization, and bankers-without them, none of this work would be possible. And finally, we want to thank the communities where we work with their cooperation and share hope for a better future. It is for them alone that we continue into the years to come.

This report, I hope, will spread and strengthen the activism of DEHAT and its many supporters. When we take the time to look fully and openly at all we have accomplished, the solutions for moving forward become clearer and more within our grasp. A day when all children can enjoy the fullest realization of their rights, we believe, draws nearer every year.

Let me take you the world where we DEHATians exists "Because every child matters"...

Jitendra Chaturvedi

CEO and Founder

THE STORY OF DEHAT

Because every child matters... ”

Founded by Dr. Jitendra Chaturvedi with some rural youths as a school for tribal children in Bahraich district of Uttar Pradesh.

The school has now recognized by the government after 11 years of Forest Rights Expedition 'Azadi'.

2000

THE ESTABLISHMENT

THE FOUNDATION

2001-04

- ▶ Began with Health, Hygiene and Sanitation activities in 5 villages
- ▶ Later, commenced vocational education for the development of youth
- ▶ In 2003, Management of the school transferred to the community
- ▶ Conducted a study on the 'Livelihood Conditions of Traditional Forest Dwellers' in 34 villages of Bahraich District and mainstreamed 991 families from not being a citizen of the country to a govt. scheme equipped community.

- ▶ Established first office, started the first formal project called *Lokshakti* in 54 villages focused on Women Empowerment, Human Rights and Poverty alleviation (a DFID initiative)
- ▶ Increased Intervention area to 73 villages
- ▶ Commenced the Rural Entrepreneurship Development Project in the same operational areas
- ▶ Commenced the 'Sure Start Project'. (Maternal & Child Health Initiative) in 295 villages, increasing DEHAT's presence to over more than 300 villages.
- ▶ Launched a Bridge Course Education program in partnership with the UP Government in the existing intervention villages.

2004-08

THE BEGINNING

- ▶ Revised its Vision and Mission & Theory of Change to focus on child rights through all the interventions
- ▶ Strategized the initiatives in 4 Categories:
 1. Education/Empowerment
 2. Livelihood/Food Security
 3. Health/Hygiene/Sanitation
 4. Child Protection
- ▶ DEHAT won a national award- Manjunath Shanmugam Integrity Award by the International Alumni of Indian Institute of Management-IIM

2008-12

THE REVISION & STRATEGIZATION

THE COLLABORATIONS

- ▶ Launched a project on child protection in collaboration with UNICEF.
- ▶ The CEO won the Social Bravery Award (2012) by SONY Entertainment Network
- ▶ DEHAT has been honored with Dasra Girls Power Award for its Girl Child Education Initiative.
- ▶ Launched 'Swavlamban' initiative in collaboration with TATA TRUSTS under livelihood category for farmers having less than average land holdings in Bahraich District.
- ▶ Expanded to Amethi District and launched integrated community development program in collaboration with ACC Cements.

2012-16

- ▶ Launched a Malnutrition Project in 675 villages of 7 districts in partnership with UNICEF under Health Category.
- ▶ Launched Childline 1098 to launch protective services to prevent sex trafficking in its intervention areas under Child Protection Category
- ▶ Won the India NGO Award, which has been given by the Rockefeller Foundation and the Resource Alliance
- ▶ Launched 60 doorstep education centers under a Rural Girl Child Education Project in collaboration with IIMPACT-an IIM alumni organization under Education Category.

2011-14

THE RECOGNITIONS

THE GROWTH

2014-16

- ▶ Our community leaders won awards from Uttar Pradesh's CM and President of India.
- ▶ DEHAT has won various prestigious awards like Social Enterprise of the Year, World Congress CSR Awards etc.
- ▶ Likely to partner with various theme based organizations by the end of the year.

WHERE WE BEGUN

DEHAT (Developmental Association for Human Advancement) begun in 1989 with a group of young activists from the district of Bahraich in Uttar Pradesh. The Planning Commission has identified Bahraich as one of the 100 most backward districts of India. For ten years, DEHAT served as a youth group by operating a school for 'Tharu' tribal villagers and forest dwelling children, until being registered under the Society Registration Act 1860 on the 21st of August 2000.

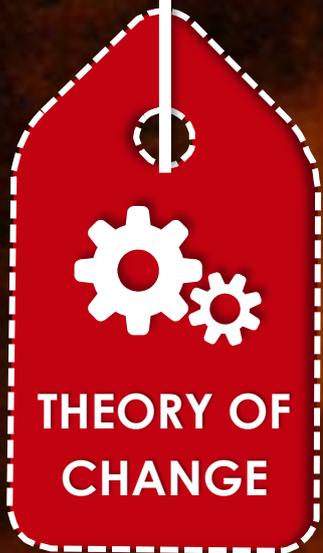

LOOK
BACK

AND SINCE THEN...

DEHAT has worked in conjunction with partners worldwide to empower and advocate for the most vulnerable and disadvantaged among us. We firmly believe that sustainable development can only take place when all children are assured of their survival, protection, and full participation in the development process. The 1990 United Nations Convention on the Rights of the Child established a comprehensive set of rights for all children, and our work stands to translate those policies into on-the-ground practice. Through focused intervention that builds local capacity and empowers all sections of society, we hope to move towards a world where children enjoy the full range of their rights and opportunities.

A child is first and foremost affected by his or her direct surroundings—family, neighborhood, school, and friends most immediately shape the course of that child's life. With that understanding in mind, DEHAT takes a holistic approach to activism that brings together education, maternal and child health, female literacy and empowerment, protection against human trafficking, farming and livelihood practices, and community building into a comprehensive solution for the problems faced by children in our target communities. And recognizing that those issues exist in a broader social context, we pair grassroots activism with political advocacy, community mobilization, and struggles for legal rights and their full realization. Thus, all our activities—whether at the level of national policymaking or local farming demonstrations—returns to serve the interests of children, especially those in the marginalized and oppressed sections of our society.

Vision

**A child centered
society in which all
children enjoy the
fullest scope of
their rights**

*Theory of
Change*

**If children are assured of
their survival, protection
and participation in the
development process,
only then can a society
achieve sustainable
development**

Mission

**To empower the
deprived and
underprivileged
sections of society in
order to ensure the
basic rights of
children**

THIS IS HOW WE HELP

OUR INTERVENTIONS REVOLVES AROUND...

BEHAVIOR CHANGE

Communities in “hard to reach” areas are deprived of quality information, education, training and exposure. Due to limited awareness opportunities, they follow many traditional practices which can be harmful for their quality of life. At DEHAT, we are committed to helping a community changes and its behavior in a way that improves the people’s quality of life.

DEMAND GENERATION

Numerous government programs, schemes and acts are in place, but due to lack of awareness they are still out of reach to the eligible communities, especially marginalized peoples. We are committed to make sure that everyone in our communities are aware of the government’s actions which might improve their quality of life or infringe upon their basic rights.

SYSTEM STRENGTHENING

DEHAT feels that some government programs are not able to completely benefit the target groups because the community support is weak. Further, government programs may have poor results due to lack of knowledge about them. Henceforth, we are committed to strengthening the government systems working for the welfare and development of its communities through generating community support, capacity building, and awareness campaigns about programs, schemes and acts

PROVIDING SERVICES

DEHAT believes that any organization cannot be an alternate to the government, and as a welfare-state system the government is responsible for all kind of services. Due to this belief, we always empower communities to raise demands of their needs. DEHAT observes in some cases that government support for suffering communities is taking too long. Parallel to the demands, DEHAT is committed to providing its services to the community until the realization of government support.

Despite India's promise to ensure certain rights for children, huge challenges remain before the promises are realized. We firmly believe that sustainable development can only be achieved when all children are assured of their survival, development, protection, and full participation in the decision-making process. Through our work, we hope to move towards a world where children enjoy the full range of their rights and opportunities. Below is a summary of how DEHAT approaches this issue and how it is helping children in India and slowly achieving a child-friendly and youth-enabling society.

RIGHT TO SURVIVAL

RIGHT TO DEVELOPMENT

RIGHT TO PROTECTION

RIGHT TO PARTICIPATION

Initiative Categories Involved:

- ▶ Health
- ▶ Women & Adolescents Education

Activities Involved:

- ▶ Community initiatives to strengthen existing government health care systems.
- ▶ Community's education on maternal and child health.
- ▶ Epidemic control and vaccination promotion.
- ▶ Promotion of sanitation practices (also includes bamboo made eco-friendly toilets).
- ▶ Nutritional counselling and education.

Initiative Categories Involved:

- ▶ Education
- ▶ Livelihood

Activities Involved:

- ▶ Establishment of alternative education centers for school dropouts and non-attendees (especially girls).

Village Blocks

 Indo-Nepal Child Protection Network / Partner NGOs

 Direct Intervention

DEHAT has its Network & Alliance across the border districts of Uttar Pradesh and Nepal.

-Sunita Chakravarty, Sitkahna Village, Shrawasti, Uttar Pradesh
Teacher from Swadhyaya Initiative (Winner of Swayam Awards by the Chief Minister)

I was walking back from the education center after teaching when two men started following me on a motorbike, they passed mean and vulgar comments which were very offensive. I tried my best to let go and ignore but they pulled my saree off and also tried to assault me. I started slapping them and throwing stones on them as the result of the struggle I started bleeding from my hand and legs. They ran away to another village, I called the project coordinator and went to the other village named Singahia with him. The police arrived an hour later and refused to arrest the culprits due to the political interference, but with the efforts of Jitendra Bhaiya, we were able to engage the press into this matter and by the midnight the police agreed to register the case.

-Kurkuri Kuan Community, Mihinpurwa Block, Bahraich, Uttar Pradesh
(From 'Swadhyaya' Initiative)

In Kurkuri Kuan Village, initially the center was in open space and it was very difficult for the girl champs and teachers to run teaching and learning activities. We raised our concern with the community and made them realize how important it is for a girl to get educated, we brought all the likeminded villagers at one platform in the form of Community Based Organization namely 'Balika Shiksha Adhikar Samiti' and exercised with their rigid behavior and managed to agree them not to engage girls in marriage or labor activities and soon they inspired whole village on the same concern. As an outcome, community members collected INR 4000/- (\$60) and prepared a shelter using Bamboo and weed. Community has also prepared a Bamboo toilet for the children. Now community itself make sure that no girl is left uneducated and also monitors the centers.

-Nidhi Singh, Annibaisal, Amethi, Uttar Pradesh
From 'Alternate Pathshala' Initiative

Local Govt. School is 5 Kms. far from my doorstep and my parents could not afford private school fees. I was left with only option to sit home and work as a domestic helper. Meanwhile, Triloki and Pradeep Bhaiya came to my parents and convinced them to let me study, but the problem was that papa still did not wanted me to leave the premises due to security reasons then Pradeep Bhaiya told me about Alternate Pathshala Initiative which was just couple of steps from my doorstep. I continued with the Pathshala and scored 71.8% in my matriculation and now my parents are willing to admit me for the intermediate level of education and I am aiming for being a teacher help hundreds of children in my village.

-Gobrey, Bhawanipur Village, Bahraich, Uttar Pradesh
(From 'Swavlamban' Initiative)

There was a time, when I use to be a daily wage laborer and able to manage just INR 120/- (\$1.78) a day and that too 15-18 days a month and it was hard to fulfill the bare minimum needs of my children and wife. When Jitendra Bhaiya of DEHAT came up with Swavlamban idea and convinced me with the facts and figures, I believed them and took the risk on just a small piece of land which was not much than 1000 Sq. feet which was not even fertile enough to grow crops or any vegetable we can think of. They trained me with lots of knowledge and exposure from across the country and prepared me as Agriculture Barefoot Scientist. Now I inspire hundreds of other farmers to implement the same as I do and we are now capable enough to ensure every single right that my wife and children deserves.

-Dr. Saleem, Munshipurwa Village, Shrawasti, Uttar Pradesh
(From 'Swadhyya' Program)

As I was a single Ph.D. among the locality, I was enthusiastic about doing something for the girl champs who were facing discrimination in any possible way you can think of. When more than 98% population is socially excluded, you can assume how pathetic the situation was. Meanwhile, DEHAT was doing a study on girl child education status to start a new program in the area, when I came to know, I have reached to them. Since both of our ideology was same, we have decided to wipe out the discrimination and vulnerability girls were facing and since last six years, we are together and along with education, we are dedicated to change community's mindsets towards girl child education. Now as a result of our efforts, 40 child marriage was stopped and 4 villages got free from child marriage. All I want to say is that DEHAT is playing a catalyst's role in our community and believe in sustainable change and the kind of empowerment they gave me through their resources and exposures, I will inspire as many people I can.

-Moshima Bano, Ashidapur, Amethi, Uttar Pradesh
(From 'Light a Life' Initiative)

The maternal health care mechanisms were too week to take care of any medical tragedy in my village. I was going through my initial phase of pregnancy. Triloki Bhaiya came to us as a part of their initiative in our village and guided me and my family to take care of me and my unborn child by several nutritious meals and precautions. They kept visiting us on regular basis until the delivery phase and since the institutional delivery was not possible due to the distance, they informed my husband and mother-in-law about umbilical cord-cutting, sanitation after and before birth, salt selection before and after delivery, thermal care and breastfeeding practices. As an impact of their efforts, now I have a healthy child in my life and I can't express in words that how happy I am. I will spread the information and practices among my community so that all can have healthy babies with happy mothers.

SPOTLIGHTS

Number of children's lives we've touched & gave back their smiles by fulfilling all their scope of rights

THE IMPACT

DEHAT monitors its impact on both macro- and micro- levels. We design and implement our programmes specifically to target the impact we strive to make. We form enable, educate, and empower Community Based Organizations (CBOs) at grassroots level to monitor all our services as we believe that by putting a crystal-clear picture of the projects in front of the beneficiaries, they can better scale what they are availing. Let's have a look over our systems or tools that makes us capable to measure our impacts at significant level.

▶ **Management Information System [MIS]:**

MIS systems have been developed at the grassroots level, which is maintained by the Community Level Workers [CLWs] at village level, compiled by the "Field Coordinators" at cluster level and then compiled at project level by MIS Officers and validated by Project Coordinators. This system has all kind of data and detailed information regarding the activities executed at grassroots level. The organization level MIS is compiled and maintained on the basis of grassroots level MIS system.

▶ **Monthly Data Report:**

The monthly data report is compiled on the basis of MIS and submitted by the Field/Project Coordinators on monthly basis

▶ **Fortnightly and Monthly Meetings of Staff:**

In these meetings, all the team members share their findings, present the reports, and plan accordingly

▶ **Monthly Core Committee Review and Planning Meeting**

In the presence of Chief Executive, all the Project Leaders along with one team member (From Second Line), organize core committee meetings every month. In this meeting, each Project Leader/Coordinator presents monthly progress report and plan for next month in PowerPoint form followed by question-answer sessions. This process helps to develop the best understanding of each project team on organization's progress in total.

We approach development in a way that is holistic, targeted and local. By keeping our initiative's scope intense, we can involve in the communities we work with deeply. We can then address the complex and interconnected problems of education, health, poverty, protection and empowerment together for sustainable long-term progress. Our dedicated team aims to identify the real drivers behind negative outcomes and create sustainable and effective solutions to address them.

The Monitoring...

Every new day

Daily Task Setting, is one of the method that allows to brief yesterday's challenges and plan the tasks for today. Later, team moves with task checklist

STEP
01

STEP
02

The WhatsApp way

Be it at the bottom or top, each team member reports the brief of entire day and post updates along with the photographs

STEP
03

The Fortnightly & Monthly Report

All Team leads compiles the MIS Data and present & discuss the concerns via PPTs

STEP
04

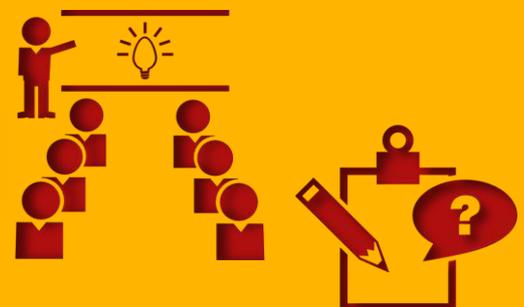

Internal Reviews

Random visits by the top level management with a defined checklist .

The Audits

The donor's and external expert's visits to make our initiatives more impactfull

STEP
05

Our work in the very hard-to-reach areas in India has been recognized by eminent people around the world, including Global NGO Awards by The Resource Alliance, UK who shortlisted us as First Runner-up among the top 5 organizations from all around the world. We have also consistently won awards for excellence, including:

2015

THE FEATURED SOCIAL ENTERPRISE OF THE YEAR

DEHAT has been honored as Social Enterprise of the Year 2015 at 'Manch' Summit 2015 for its outstanding replicable model of Crop Intensification Systems among the farmers having less than average land holdings. Trafficking active in garb of migration from Nepal

BHARUCH: Sudden spurt in migration of people from earthquake-hit Nepal into the country has kept the security forces and intelligence agencies alike. Suspecting human trafficking, security has been tightened on the Indo-Nepal border, spreading across five states, UP at the lead. Intelligence sleuths deployed on Indo-Nepal border at Rupaidiha checkpost said approximately 15,000 women were trafficked from Nepal through the five states sharing the border with the Himalayan Kingdom.

The Indian EXPRESS
JOURNAL OF COURAGE

State gets its first revenue village under Forest Act

EXPRESS NEWS SERVICE LUCKNOW, APRIL 19 THE forest village of Datedaar Gaudi in Behraich district has not only acquired a new name but its dwellers have also for the first time been awarded the ownership of land. Rechristened as Gokulpur, Datedaar Gaudi became the first village in Uttar Pradesh to be converted into a revenue village under the Scheduled Tribes and other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006. District Magistrate of Behraich Rishi Samphel on Thursday distributed the registry deeds of 25,839 hectares of agricultural land to 53 families of the village. According to his records, this is the first village in the state where traditional forest dwellers have been given land rights, said Samphel. The district administration has also asked the villagers for community purposes like building primary school, primary health centre and community post under the Mahatma Gandhi National Rural Employment Guarantee Scheme (MNRGS). With a population of 350 families, Datedaar Gaudi is one of the eight villages in the district which are being covered under the Act. The dwellers were brought here by the British in 1930 and given land for agriculture purposes. Apart from guarding the forests, they also worked as plantation labourers. In 1980, the arrangement however came to a stop as the area came under the Forest Protection Act. 1980. Families lost their land. Consequently, their condition deteriorated as they could not avail the benefit of public distribution system or other job schemes. They primarily worked as farm labourers and the

It was something unusual for the residents of Nakahi in Shravti January 7 when Fatima's husband and his parents came to the gauna and take the seven-year-old bride along with them, her Fatima was married off to Bakridi Khan when she was three years old. The custom prevalent in northern India, in which the groom after the marriage goes to the bride's house to bring her along to begin Fatima's daily wage parents owe this change to an initiative by Dehat's education centres. They are the first generation in the

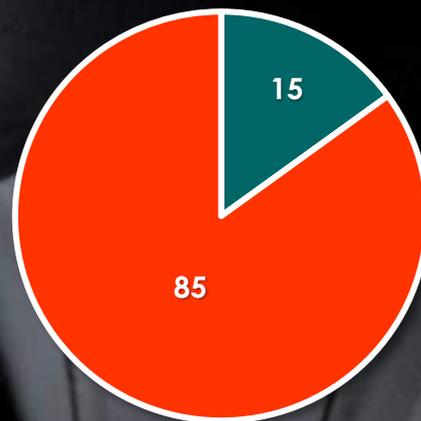

In 2015-16, DEHAT was featured approximately 300 times through the year in various publications and newspapers across multiple platforms.

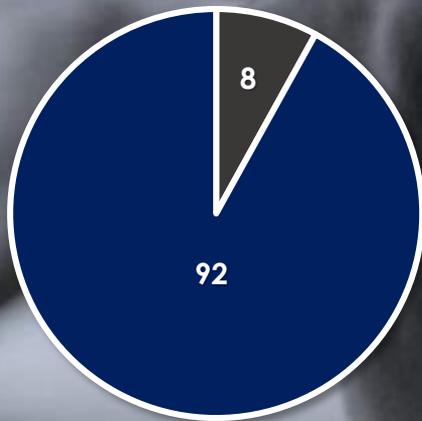

GIRL CHILDREN WERE MARRIED BETWEEN 3-18

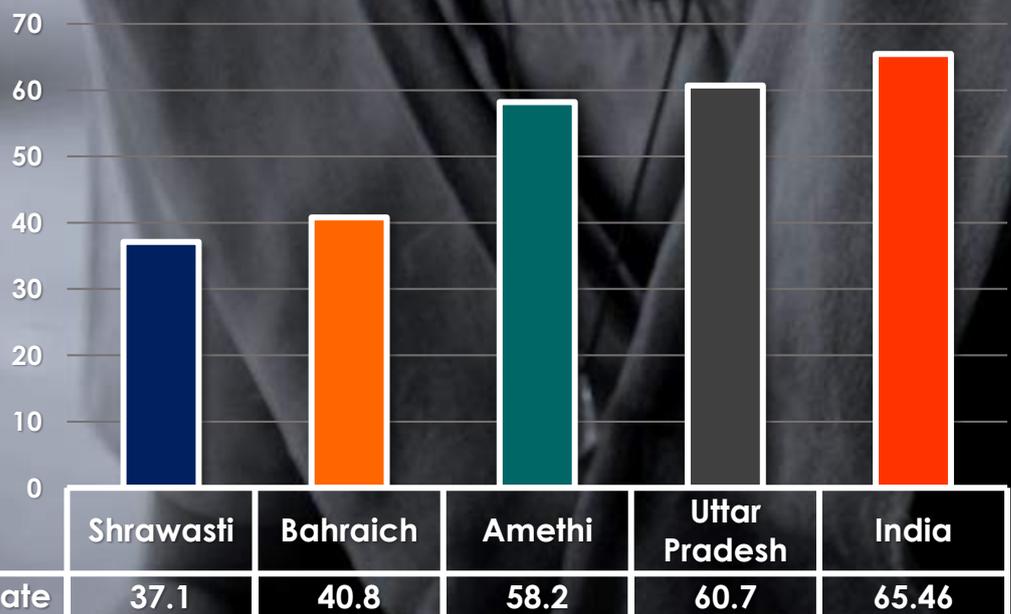

MORE THAN 92% CHILDREN ARE FROM SOCIALLY EXCLUDED GROUPS

MORE THAN 85% OF CHILDREN WERE CHILD LABORS

FEMALE LITERACY RATE ARE FAR TOO LOW THAN U.P. AND INDIA IN OUR INTERVENTION AREA

Female Literacy Rate

Why ‘Swadhyaya’ Initiative?

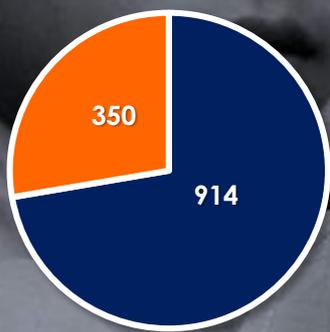

Girl Champs who are born in “hard-to-reach” demographics, where facilities like schools are at least more than 2-3 miles far from their households and a society where they have been declared as “Socially Excluded Groups” which nearly implies the end of their hopes. Meanwhile, in day-to-day life, Girl Champs are often denied of their Rights of Participation, Development & Protection. Furthermore, the community’s mindset is limited upto offering more and more opportunities to their boys as he can help them to earn their livelihood and denying the hopes and desires of their Girl Champs. In their eyes, she can only be the core helper for their housekeeping work and later in the huge responsibility of her marriage (Parents were accustomed to marrying their Girl Child even earlier than 13). If we combine these problems together, we can have a better idea what can be the consequences of this wretched situation all together. Girl Champs, while fighting for their basic rights in their lives, can rarely get the opportunities to relax, wonder and simply enjoy themselves while learning more about the world they live in. There is a marked lack of encouragement, inspiration and awareness of the multitude of possibilities that await them in society. We believe that Champ’s demographics cannot be the indication for her destiny. Every champ deserves a chance to experience a whole new life, filled with opportunities to take full advantage of themselves and learn new things while building self-confidence. This belief is what inspired us to create the “Swadhyaya” Initiative.

How ‘Swadhyaya’ works?

DEHAT’s Rural Girl Child Education Initiative seeks to bring free of cost quality primary education to villages where girls’ education is otherwise forgotten or ignored. We operate alternative learning centers where girls from 1st to 5th class learn subjects including Math, Hindi, Science, and English, as well as important knowledge about nutrition, adolescent health, and their rights. These learning centers are also a safe space for girls in these villages, where they can receive counseling against the harms of child marriage or child labor and seek support of their teachers to oppose violations of children’s rights. Through these learning centres and organizations of parents, teachers, and community leaders, we hope to empower both the girls studying in our schools and to expand opportunities for these women long into the future. The unique side of this program is that all the centers are operated in “Community Donated Spaces” and also managed by a committee constituted by the community.

Through Project ‘Swadhyaya’ we not only educate our Girl Champs to the limits of ABCD and writing their names, but we often provide an incredibly innovative environment, which not only allows them to get a primary-level education but also develop themselves in a setting where they can show-up their talents like singing, drawing, creating rhymes and writing poems, etc. Meanwhile, since it is a core programme for adolescent groups, we offer to them participation in the dialogues in and interactions with issues like Reproductive Health Rights, the consequences of Girl Child Marriages, Trafficking Hurdles in different entertaining ways. These may become challenges in their lives due to extreme poverty. The only thing which allows us to achieve these ‘CHANGES’ is Community’s Behavior Change. Project ‘Swa-Adhyaya’ is something different that we have introduced to take up these challenges in an incredibly new way. We have not bounded our teachers to the classrooms but also have involved them in door-to-door counseling of parents of the Swa-Adhyaya Girl Champs.

Why ‘Bravo Girls’ Initiative?

A survey that we have compiled across 14 villages of Bahraich Districts of Uttar Pradesh, India revealed that while on one hand, the basic literacy rate was more than 92%, less than 1% of the population had completed secondary-level education. Additional research revealed that the dropout percentage among girls after Class VIII is as high as 96.7% in the area. On the ground, this means that a very small percentage of girls in the region are actually completing education up to Class X, which is the bare minimum required for any opportunities being offered. This, in turn, leaves these young girls vulnerable to issues of early marriages and domestic abuse. Meanwhile, marked gaps like leadership qualities in Girl Champs, community’s sensitization about impacts of their daughter’s education, and safety concerns while school days are some of the major reasons that inspired us to design the “Bravo Girls” Initiative.

How ‘Bravo Girls’ works?

Bravo Girls also faces the kind of same adversities like Swa-Adhyaya’s “Why”, keeping the findings in mind, this initiative is specifically designed to bring quality life to the group of adolescent Girl Champs with an empowerment approach so that they can be aware and capable of standing up for their rights as citizens. Henceforth, the curriculum is also delivered by trained teachers who can be a good teacher as well as an excellent role model for the Girl Champs.

Features of Bravo Girls:

- ▶ With lots of exploratory knowledge, experience, and Class X graduation certificate, Champs get all possible access to the employment opportunities offered by various government and non-government agencies available in rural areas.
- ▶ Some of them (Change Makers) takes leadership positions in their communities and help it move towards a better future collectively.
- ▶ The communities are now encouraged to allow their daughters to attend school’s education centers as they can clearly see the impact of the program. This has an amazingly positive social change and increased the penetration of quality education in rural areas.
- ▶ Sensitization of working women acting as mentor-mothers and inspire them to sensitize others, both in their professional and personal spheres to share their love, time and experience with the disadvantaged communities. Very often, a little bit of their time makes a big difference.
- ▶ Future families of these Champs will receive immense benefits, especially the children. This is in keeping with the belief that educating a girl is educating a future family. It has a cascading effect which multiplies over the time.

“Alternative Pathshaala” Initiative

Educating, Enabling & Empowering the Rural Girl Champs (E³GC) Programme

Why ‘Alternative Pathshaala’ Initiative?

At DEHAT, we believe that dream and a true passion is the only material that can produce an incredible personality. It does not matter where they grew up or what their financial background is. What matters is that their true choice came from their interests and passions. While working with rural champs in different educational scopes, we found that as they progress through schools, there was a huge gap between their projected academic performances and actual performances. Also, one of the major reason for these performances was the teacher-student ratio at Govt. Schools, which is often far beyond imagination, e.g., 169:1 in some cases. Meanwhile, lack of awareness, confidence and exploration of the long career and life choices could not match the dreams of Champs. These flaws and lack of inspiring and supportive social environments for Girl Champs is what the ‘Alternative Pathshaala’ addresses.

How ‘Alternative Pathshaala’ works?

Alternative Pathshaalas strives to bridge the gap between all the opportunities, choices and overall academic development progress in the Champs’ lives. Alternative Paathshaalas works exclusively with champs in 6-10 Grades. Along with providing all the tech-ticks of passing boards exam with distiction, we provide them exposure to various career options and enable them to understand what there true strengths and potentials are. We include our very own training module to train Pathshaala’s teachers and include some of the top notch local resource person to accomplish the benchmarks we set every year.

ALTERNATIVE PATHSHAALA ADDRESSES

We owe our gratitude to Canara Bank for providing such Infra for the initiative

Why ‘Digitify’ Initiative?

Through our extensive work with education in different ways, we have realized that digital education can bring more concept clarity and make learning even more fun experience. Research shows that digital environment can give a marked effect on intelligence and creative development. But in demographic adversity, it is difficult to find such facility. Here, we have come up with a solution that breaks this marked distance between Digital & Manual Learning. The primary focus of Digitify is to make the learning experience a true fun & creative environment.

How ‘Digitify’ works?

The aim of Digitify is to convert the traditional way of learning into modern and globalized educational involvement. We do this by instilling ‘hole in the wall computers’ in primary classes of Govt. Schools and involve a special mentor to monitor the functionality and instructions. Furthermore, Computer Coaching Centres(C³) help to identify secondary and senior secondary level gaps in digital skills. Digitify prepares the Champs for cracking into urban environments and making their career choices broader after +2 standard.

DIGITIFY ADDRESSES

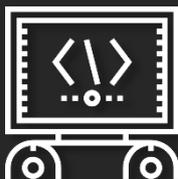

Internet basics to the champs of 6th to 12th std. and guide them to access appropriate information on it

Office package is another core part of the initiative, so that they can manage to compete the very urban aura out there

70

Champs of 6th to 12th std. have learnt the very basic of Internet and Office Package so far

Why ‘SPICE’ Initiative?

SPICE stands for School Premises for Innovative & Creative Education. Believing that Govt. Schools are the only alternate for poor and deprived children. We have initiated this project to let the children:

- ▶ Understand the physical world around them
- ▶ Comprehend the passage of time in their Daily Life
- ▶ Grasp Tech-Ticks to deal with numbers
- ▶ Get different ways of interacting with language
- ▶ Involve with Doing and Learning Acts
- ▶ Enabled with Fun & Learning concepts
- ▶ Making the nature of Government school's components as inviting for children instrument.

How ‘SPICE’ works?

School buildings are meant for children. They are designed for them. And yet somehow they do not relate to them in a holistic way. Each component of the school is somehow conceived in isolation with little consideration about what the child is finally going to experience as a whole. “SPICE” is all about making the building components an active facilitator in the whole process of teaching-learning (which is the primary function of the school) for children and teachers (who are the primary users). It is an innovative way to conceive of and use the various building components like the floor, wall, door, window or even spaces like corridor and open space in such a way that it also helps children and teachers in the process of teaching—learning apart from serving their usual function. Thus, in a school that has been conceived like this, a floor may no longer be just a floor but a way to understand fractions or window might become more than a usual window and let a child prepare for skills in writing Hindi alphabets, or a sensitively designed corridor could help children to correctly estimate distances.

SPICE ADDRESSES

Library and quality books in each SPICE adopted Schools

Rejuvenation of Primary level schools and increase in the retention rate through various interventions including SPICE approach

Govt. teacher's training to track each child's progress on Day to Day basis

Why ‘Womenia’ Initiative?

While making efforts in different scopes of education, we realized that Champs’ shelter is the first institution for her or his life, and mothers are the first teacher to give them a lesson of life and beautify them as an incredible persona. But realizing the lack of knowledge & awareness about initial academic concerns & different government schemes that her family can avail is leading their families to a dark world where they cannot even think of educating their Girl or Boy Champs (after 6 and above) and cannot avail the existing schemes that the government is offering to them. Believing that only community’s behavior change can play a major role while achieving our goals to transform the families, we have initiated Womenia.

How ‘Womenia’ works?

‘Womenia’ aims to provide a mother mentor to each’s family, especially to the children (at least until they reach the basic level of understanding). The core focus of this programme is to teach the alphabetical and basic academic knowledge to the illiterate women, endowing them with correct health and hygiene practices and making them a demanding citizen for all their deserving rights and government schemes. We do this by opening literacy centers in the different locations in which we work. (Shelter for these centers are borne by the communities itself.) Meanwhile, literacy counseling and drives help us to mobilize community support.

Impact assessment data reveals that 98% of these women could now sign their name and are able to raise voice for government actions, and over 74% have mastered all tasks including advanced exercises in basic language knowledge.

WOMENIA ADDRESSES

Information to the women regarding what life their family and its children deserves and how they can avail it

Women of age group 23-65, mostly mother or grandmother are being addressed with an aim to nurture at least one mentor-mother in each household we work with

Ability to not just read and write but also give them the very basic content to give a little push to their lives

Information on Basic health and hygiene practices that can prevent various health problems of their families

Empower and educate them about citizen rights and govt. schemes to strengthen demand generation from these women itself

WOMENIA IMPACT 2015-16

884

Womenias' appeared for NIOS exam and all have successfully qualified the exam with a minimum of B+ Grade

'Womensia' Education Center has been established so far

576

Womenias' are now having a basic knowledge about reading, writing skills and necessary information on citizen rights and govt. schemes.

98%

Womenias' are now having basic knowledge about health and hygiene practices that can prevent various health problems within their families

127

Womenias' are currently enrolled across Womensia centers.

'Swadhyaya' Initiative

The 'Swadhyaya' program continues to evolve based on our experiences on the ground. Our focus for 2016 is to implement a new curriculum designed to improve foundational literacy and numeracy in champs by grade 5. We also plan to invest in up-skilling and empowering our academic support team to incorporate differentiated and activity based teaching practices in all Swadhyaya classes, thereby improving the quality of support children receive. Over the next 5 years, Swadhyaya will expand to the Jungle area of Bahraich District where tribal exists and will be introduced to at least 6-8 Govt. schools which are abandoned and deprived of all govt. schemes and even basic facilities with a combination of all the components at one platform.

'Bravo Girls' Initiative

In the past year, 'Bravo Girl', was primarily focused on providing exposure to various scopes of education in and after 10 and +2. In its new avatar of 2016, Bravo Girl Champs will be admitted to a regular and quality Girl's School in urban city Bahraich (Because no school is available in their area yet), which will now give them a whole new aura that a normal child deserves. The journey has started from a jungle and now all champs are compatible and capable to compete with urban environment. While their off-school hours, our focus will be on helping the Champs find their area of interest through initial profiling, explore it through experiential workshops and activities. Champs will also be supported in building practical life skills such as social, computer and employability skills through highly educated housewife volunteers from higher income families etc.

'Alternative Pathshaala' Initiative

Alternative Pathshaalas, in its current form, is focused on enhancing Champs' skills in subjects like English, Science & Math. Going forward, Alternative Pathshaala will evolve as a platform for breaking their regular and traditional methods of studies and involve fun and learning activities focusing on career awareness. Furthermore, children will be enabled with building and connecting their dreams through self-growth and transformation. In 2016-17, we look to partner with sector experts and draw on their theory of personal transformation to help children increase self-esteem and confidence. Alternate Pathshala will continue to be a fun and educational experience but will grow to include aspects such as goal setting, defining aspirations, and teaching children to dream big and take the first steps to realizing their dreams.

'Digitify' Initiative

A key purpose of Digitify was to generate an impact by improving the knowledge-base for children in digital skills, but we have found that there is often a huge need for this initiative. Six Govt. Schools and two Computer Coaching Centres may be enough to make even gentle impact due to long distances from Champs' households, especially when considering long-term outcomes. As our focus has shifted towards long-term outcomes, we realize that we need to re-purpose resources towards improving the quality and range of our digital initiatives. The most effective way to maximize this effort for us is to initiate this project with cost effective approaches in more programme areas in which we work. The reason behind the expansion of this project is that we only work with hard-to-reach communities where it is just their dream to study with digital aids.

'SPICE' Initiative

As 'SPICE' emerged as one of a major change making initiative while achieving our aim of making education not as an Alphabetical Learner but as an instrument of understanding the "Why" of education. We will move forward in 2016-17 by collaborating with the government and other stakeholders especially SMCs and communities to implement RTE act, 2009 in SPICE adopted schools.

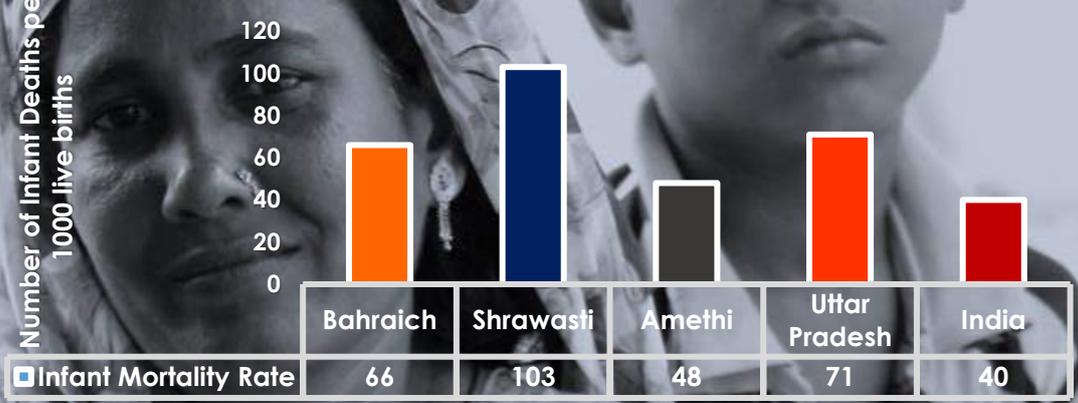

SPICE will also be expanding to the tribal government schools based around Katerniaghat Wildlife sanctuary, Bahraich district. These schools are declared worst by the govt. education department and no basic infra are available there.

'Bravo Girls' Initiative

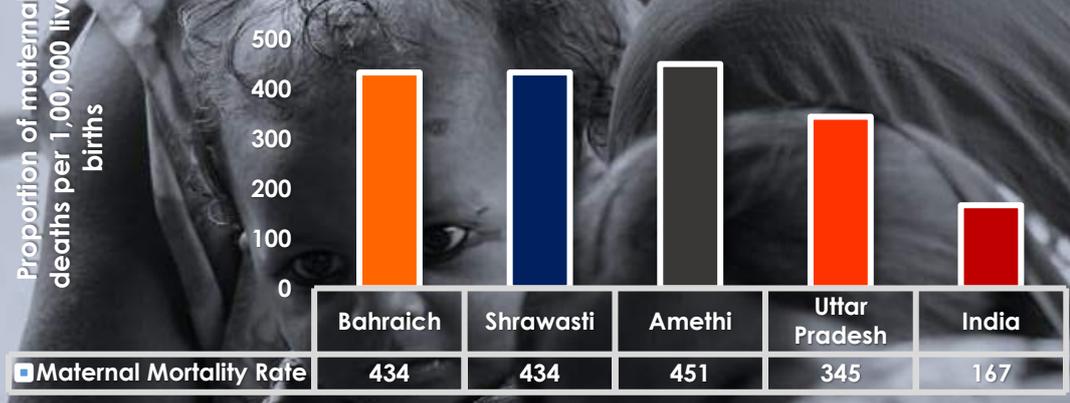

As we are achieving the aim of Womenia, there is still something missing to be done. The missing part we are talking about is a core focus on making a child-centric society by these women in each household. Along with the current curriculum, we will re-conceptualize the 'Womenia' initiative to spread out the change in the thought process of these women for making a better society for children. Furthermore, tribal communities are still left without 'Womenia' initiative, so we also want to introduce this concept with them as well.

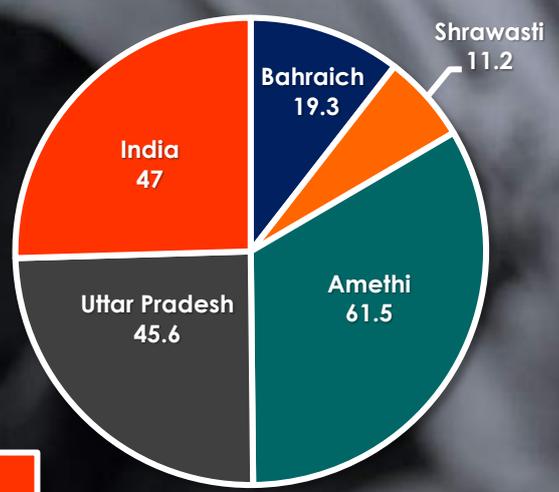

Infant Mortality Rate

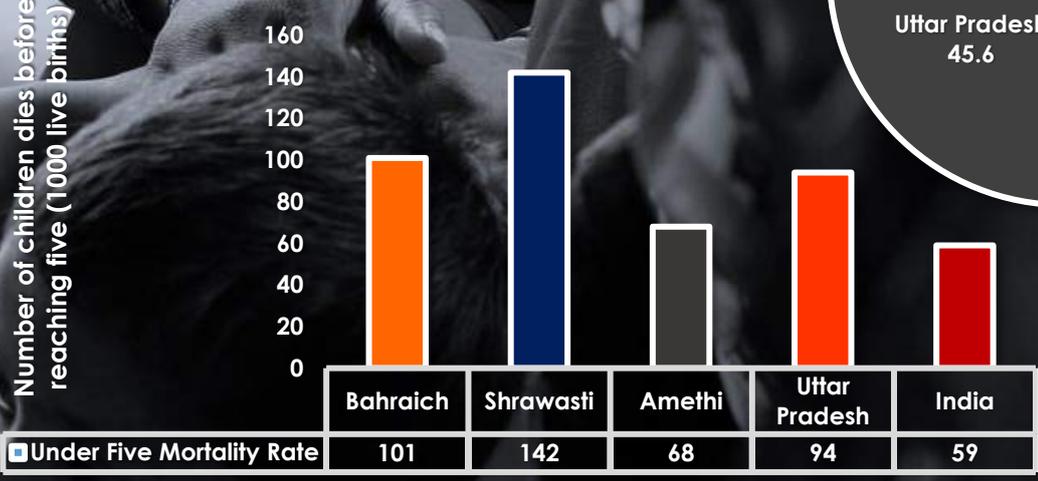

Maternal Mortality Rate

Institutional Deliveries

Under Five Mortality Rate

Why ‘Light a Life’ Initiative?

In India, 900 thousand newborn infants are dying each year. This means more than one child is dying every minute. Over 55% of children under the age of two do not receive comprehensive routine immunization in India. Approximately 2.7 million children under the age of five receive no treatment for diarrhea, one of the major causes of childhood mortality. Of 25 developing countries, India has the highest number of children who do not receive even the most basic of healthcare services. Undernutrition, respiratory infections, lack of immunization and poor healthcare facilities are the underlying causes of these newborn deaths.

We at DEHAT are committed to providing robust health and nutrition programs that save most lives of the children and ensure that they grow up healthy. We work to improve health and nutrition of mothers, newborn babies, and children with special attention to poor and vulnerable communities such as adolescent girls. We work in hard-to-reach and impoverished communities, as well as with families hit hard by natural disasters and conflict.

How ‘Light a Life’ works?

‘LIGHT A LIFE’ BRINGS SEVEN AREAS OF MATERNAL & CHILD HEALTH AT ONE PLATFORM

Newborn Health

Child Survival

Child Marriage

Maternal and Reproductive Health

Regular Major and Minor Health Check-ups

Adolescent Health

Sanitation

Nutrition

Three Game-Changing techniques and its activities-

Behavior Change

We work intensively with communities on behavioral change in traditional practices related to community health.

- ▶ Promoting institutional deliveries, thermal care, five cleans (in the case of home deliveries), early initiation of colostrum feeding within one hour of birth, exclusive breastfeeding up to 6 months, infant and young child feeding practices, hand washing and using iodized salt are some key areas of interventions.
- ▶ Celebration of “World Breast Feeding Week”, “World New-born Care Week”, World AIDS Day and other important health days.
- ▶ Facilitation of Games, Puzzle, Dari, weighing machines, pre-education charts and kits, books, health, and hygiene kits etc. for Anganwadi centers.

Demand Generation

We have realized that existing government services are in place and sometimes even at the doorstep but communities are not aware of them. Due to this, the community demand is weak.

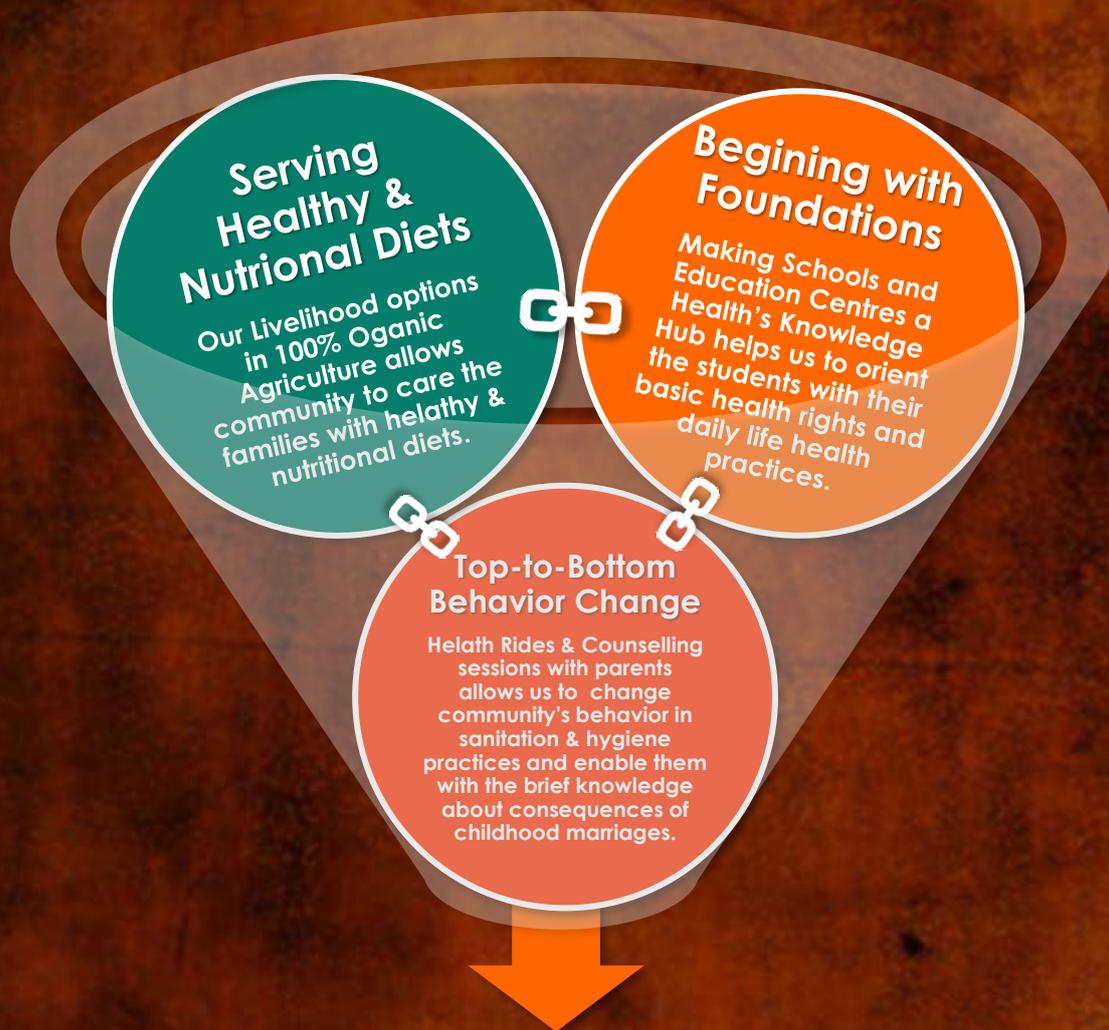

- ▶ Intensive efforts towards community’s demand generation by making them aware of need of immunizations, importance of institutional deliveries, benefits of government health and nutrition schemes like Integrated Child Development Schemes-ICDS (Popular as ‘Anganwadi’), JSY (Janani Suraksha Yojna), JSSK (Janani Shishu Suraksha Karyakram), National Immunization Program, Family Planning Services, Health Insurance Schemes etc.
- ▶ Organizing interface programs between community and government healthcare providers.
- ▶ Celebration of ‘Baal Swasthya Poshan Mah’-BSPM (Child Health Nutrition Month)” which is organized during June and December for providing vitamin-A drops along with other health and nutrition services, “Village Health and Nutrition Day-VHND” in each Gram Panchayat, “Weekly Health and Nutrition Day” at ICDS Centre level and other opportunities.

System Strengthening

We always support government efforts to improve health status.

- ▶ Strengthening the government systems through capacity-building and handholding at the grassroots level and ensuring community participation.
- ▶ Support of government frontline programs, participatory planning, awareness generation about schemes and community-led advocacy.

Furthermore, here's how we interlink our Livelihood & Education Initiative to 'Light a life'...

LIGHT A LIFE

IMPACT 2015-16

11

Anganwadis has been benefitted from Light a Life and now strengthening 100s of families

Mothers, Adolescent Girls & Children has been directly impacted

3470

Adolescents Girls & their parents counseled about basic Health & Hygiene practices as well as the conseauences of childhood marriaaes

1564

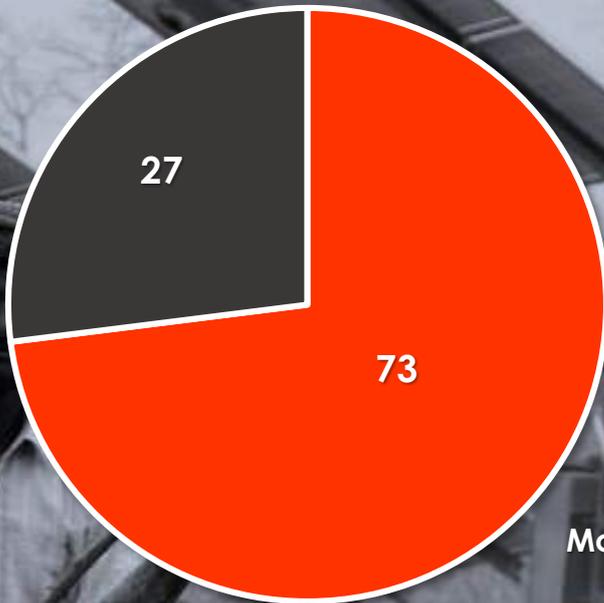

Infants and Newborn lives saved

What's next now?

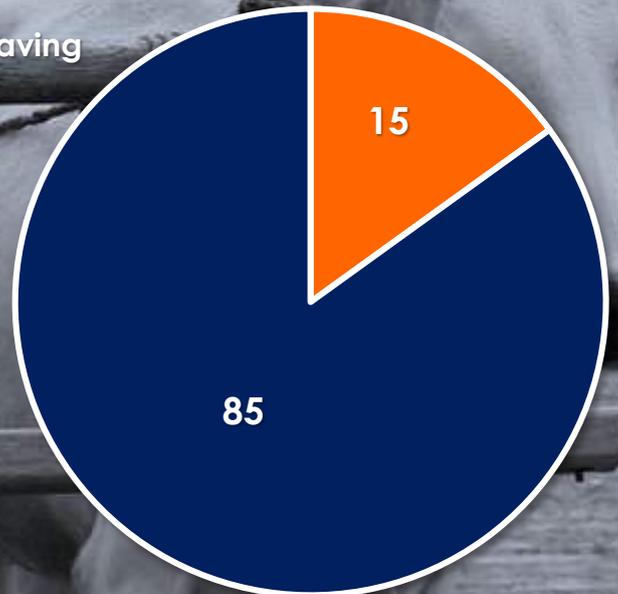

'Light a Life' will continue to expand our efforts for people's health and for making people 'Healthy Wealthy & Wise'. Up to date we have converted 31 villages into 'model villages' on the basis of child health and nutrition indicators, benefited over more than 50,000 mothers directly and indirectly, more than 16,000 adolescent girls impacted directly. Infants and children of these mothers are also having rich care. While there is much to celebrate, there is more to be done. Our focus for next year will be on increasing infant's registration, creating health leaders in communities, making emergency services for prompt deliveries, training mothers to take care of deliveries and ante & post-natal cares even at the households if there is absence of medical facility. Meanwhile, some of the very hard-to-reach area is still left of 'Light a Life' initiative, where it is most needed. The expansion of this project is expected to launch in near time.

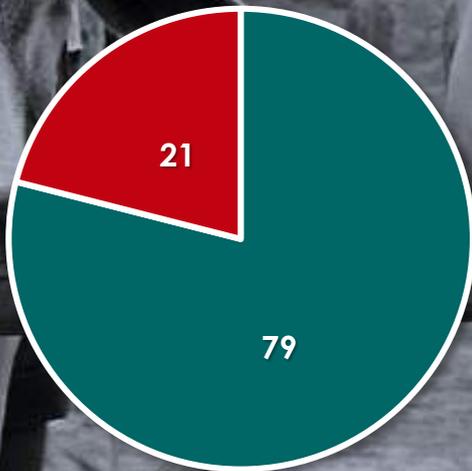

More than 73% farmers & youths were having no market access

More than 85% were not in a position to ensure their children's right

Raising Farmers, Enabling Children “Swavlamban” Initiative

Enabling The Generations Programme

Why ‘Swavlamban’ Initiative?

‘Swavlamban’, a Sanskrit term which means ‘Self-dependent’. While working exclusively with the vulnerable and deprived community, we have found that for more than 80% families, agriculture is the only way to transform their lives. Yet somehow families largely cannot make it due to lack of technical knowledge and aid, financial networks, and the support of government stakeholders (as many did not know such community even exist). Believing that modern farming techniques and government stakeholder’s support can completely change the lives of thousands of children, we have come up with this innovative solution. ‘Swavlamban’ offers each family to let them enjoy:

- ▶ Life with dignity
- ▶ Equity within the family
- ▶ Freedom from hunger
- ▶ Decent income: 1,00,000 p.a. with 3-4 sustainable sources
- ▶ Risks managed life, assets, and incomes.
- ▶ Shelter, education, health & fulfillment of the basic rights of their children.

How ‘Swavlamban’ works?

The aim of ‘Swavlamban’ is to improve the livelihoods of farmers and their families through progressive farming that decreases input costs, increases production, connects them with financial networks, and takes full advantage of government assistance. ‘Swavlamban’ targets the problem of poverty in a context where as many as 80% of families survive by means of subsistence farming. Advanced farming practices with the help of progressive government schemes offer farmers the promise of better standards of living, but in remote and underprivileged communities agriculture workers are still not reaching their full potential. ‘Swavlamban’ seeks to educate farmers about these available practices and government programs in order to propel them towards a future of dignity and a better living wage for them and their families. Consistent and adequate income empowers individuals and creates a better home environment where children are more likely to experience all of their rights.

SWAVLAMBAN BRINGS 6 METHODS AT ONE PLATFORM

Vermi Compost/Wash

Vermi composting uses earthworms to produce cheap, effective fertilizers. Vermi composting has saved each farmer's over Rs.7000 per year on chemical fertilizers, and farmers sold excess worms for additional profits. Farmers also make water based Vermo washes for their fields, prolonging field fertility by months over untreated fields.

System of Rice/Wheat Intensification (SRI and SWI)

SRI and SWI offer farmers a highly efficient way of planting grain crops, allowing for yields as much as 40% higher than traditional methods. We also demonstrated high-yielding Pusa Sugandh-4 and PRH-10 rice strains, further decreasing overhead costs and increasing production

This is

Machan (Multi-layer) Farming

Machan farming uses net roofing to grow a second crop above the ground-level crop, so for farmers growing turmeric or ginger. We promoted "Machan" cultivation of bitter melon above their ground crop.

Inter-cropping Vegetable Farming

Promotion of inter-cropping for the best utilization of natural resources. We also promote line sowing of grains and suggest leaving a specific distance between lines where vegetables can be cultivated. For example; okra with maize, onion with sugar cane etc.

how

Crop Protection From Wild Animals

Promotion of onion and garlic. This is particularly useful for farmers in areas where wild animals destroy large portions of their crops, as no single case of garlic or onion loss to wild animals has been reported.

Organic Waste Management

Promotion of homemade paste for pest control in farms. For this, farmers are trained to make and use organic pesticide with tobacco, Azadirachta indica and garlic.

we do it...

Community Resource Persons (Barefoot Agriculture Scientists)

Selection of farmers who are eager to learn and share new technologies, and provides them with training and more exposure to advancements in farming. These farmers are called Community Resource Persons (CRP) and work voluntarily for the community.

AAS Organization & Training

All farmers were organized into Aajivika Adhikar Sangathan (AAA) Community-Based Organizations (CBOs). AAS leaders were trained on government schemes and the Mahatma Gandhi National Rural Employment Guarantee Act, as well as record keeping techniques, family-level business planning, and leadership skills.

SWAVLAMBAN IMPACT 2015-16

86%

Reduction in migration and trafficking rate

1000

Regt. on the govt. agriculture website now able to avail Govt. schemes

5000

Inspired to take up their farming in Swavlambi way and their families and children are now enjoying their rights

100%

Families who were engaged in illegal liquor making are now turned towards DEHATs innovations and village got liquor free

80%

Reduction in the losses by wild animals by using Subabool & Bamboo plantation

₹ 385781

Banana farmers are currently gaining per acre net profit on an average which includes extra income of ₹64731 of extra income through multi-layer farming

Why Skill Development Initiative?

With different tragic situations, youths in deprived and vulnerable demographics are still denied of their higher study picks after matriculation or +2 level. With remaining hope, they could not enter the market for employment opportunities as they do not have any specialization with matriculation or +2 certificate. After we introduced specialized 1-month training programmes with the help of NSDC, ACC & Centum, the non-college youth are finding employment opportunities and they are often inspired to restart their academic lives. With lots of market requirement knowledge, choices and experience, these youths are now poised to evolve in India's modernizing and globalizing workforce, increase self-reliance and break the cycle of poverty.

How Skill Development Initiative works?

Every training provides students with 24 days of intensive instruction, starting from workforce basics and building to highly marketable, professional skills. Following a life-skills training on teamwork, resume writing, communication skills, and developing professional relationships, students choose to pursue skills in sales, retail, English, DTH engineering, and domestic business process outsourcing according to their aspirations during the second half of training.

414

Children's rights are now secured due to certain income sent by their guardian to their home

683

Youths are ready to take off to a new journey of their life

471

Youths are having detailed knowledge to access all the govt. and market schemes of entrepreneurship

212

Youths were placed in corporate jobs. Partners were Burger King, KFC, CCD, Taj Hotel, Shopping Malls etc.

₹ 25440000

Rupees has been earned by the youths this year

'Swavlamban' Initiative

During the past year, 'Swavlamban' was primarily focused on providing best scientific techniques to decrease input cost, increase output cost, connect them with government schemes and provide them with RTI (Right to Information) tool to ensure their rights for best living condition by all means. In 2015-16 we plan to expand our scope to create a business model for each farmer. In its new avatar, 'Swavlamban' will focus on helping farmers with other sources of earning livelihood, one of the major source we will be promoting is the production of Bamboo & Banana Fruit and providing the financial networks and market access.

'Skill Development' Initiative

Last year, we promised to shrink the gender gap further with recruiting strategies that encourage women's participation and lower their barriers to entering the workforce with placements in the Skill Development Initiative, but the adversities that families are facing and the mindset that some communities have is a huge challenge that may take some time to overcome. Looking forward, we also hope to link with more corporate houses to upsurge the placement ratio and connect the tribal and forest communities to the employability options as they're still lacking behind employers' reach.

TRAFFICKING

Why ‘HR4’ initiative?

Every year, an average of 44,476 children are reported missing in India. Out of these, an average of 5,452 are girl children and 11,008 children remain untraced. However, these kids are not just ‘missing’ – many of them have unfortunately been trafficked. Meanwhile, India itself has the sixth highest prevalence of child marriages in the world. South Asia is home to almost half (42 percent) of all child brides worldwide; India alone accounts for one-third of the global total. Some of the root causes we have observed is that children are not seen as individuals with rights. As a result:

- ▶ Children’s basic rights are abused and neglected.
- ▶ Children are the easiest targets for trafficking.
- ▶ Children are not involved in decisions affecting their life.
- ▶ Children are treated only as extensions of parents

HR4 aims to track the gap that leads the child to get trafficked, labored & married and break the roots founded, through interconnecting our different initiatives and strategical collaborations at District, State, National, and International level by connecting CBOs, NGOs, INGOs and Govt. Organizations on all the possible issues.

How ‘HR4’ works?

We have divided our child protection efforts into two major areas that attempts to be a perfect solution for the longer benefit of children. The endeavors of these 2 areas are achievable when we interlink some of our initiative with possible conditions.

1. Preventing violations of children’s rights.
2. Implementation of the Convention on the Rights of the Child and other relevant legal means of protecting children.

Micro Level-

- ▶ We respond to all calls to the 1098 hotline 24 hours a day, 7 days a week. We immediately rescue children in need and connect them to medical help, shelter, and protection from abuse, or to counseling according to their need.
- ▶ We work with partner networks and Child Welfare Committees (CWCs) to rehabilitate and return children to their families, thoroughly documenting each child to ensure they reach home quickly and safely.

Track the causes like poverty, lack of knowledge about the child marriage consequences, anti-child environment in homes and if trafficking issues found, attempt to break the supply chain of the trafficker.

Anti-Trafficking Operation (24x7), Solution for roots of the protection in each's family & counselling of community with all the scopes of child-protection

Rehabilitation, Repatriation and Reintegration of children found in most vulnerable condition from across India & Nepal

- ▶ Through door-to-door contacts, open houses, and tent activities, we spread community awareness about child rights, and we educate families on how to handle trafficking or missing children.
- ▶ Regular children's meetings allow children to voice their concerns and ensure that systemic change serves the best needs of children.

Mezzo Level

- ▶ Our booth for lost children during Dargah Mela protects children from abductors and safely returns them to families
- ▶ City mapping of child rights violations highlights high-need areas for outreach and intervention Regional Child-Protection meetings improve staff capacity and share best practices across districts
- ▶ We coordinate with police, railways, Health and Labor departments, and other government or volunteer services to rescue children as far away as Andhra Pradesh and Tamil Nadu
- ▶ We work with state governments, local companies, district administration, village panchayats, community volunteer organizations, and academic institutions to create child-friendly systems

Macro Level

- ▶ We collect data on rescued and rehabilitated children for Govt.'s national database on child protection.
- ▶ We support national efforts to track missing children from as far away as Madhya Pradesh and Maharashtra.
- ▶ We catalyze the government, corporations, and volunteer agencies to bridge gaps in current programmes, improve the use of technology in child tracking and repatriation, and increase budgeting for child protective services
- ▶ We collaborate with the border countries like Nepal to prevent migrated trafficking
- ▶ We have placed child-friendly protection booths at each border area between India and Nepal with the partnership of Para-Military Forces.
- ▶ Apart from the above said interventions, DEHAT has also founded Indo-Nepal child protection forum (INCPF)

INCPF PLATFORM

Collective efforts for rescuing, rehabilitating, restoring and repatriating Nepali and Indian missing and trafficked children

Collaboration with UN agencies, Indian & Nepali CSOs and Government Stakeholders

Focused on Cross-Border Child Protection issues.
INCPF brings Governmental and Non-Governmental efforts together

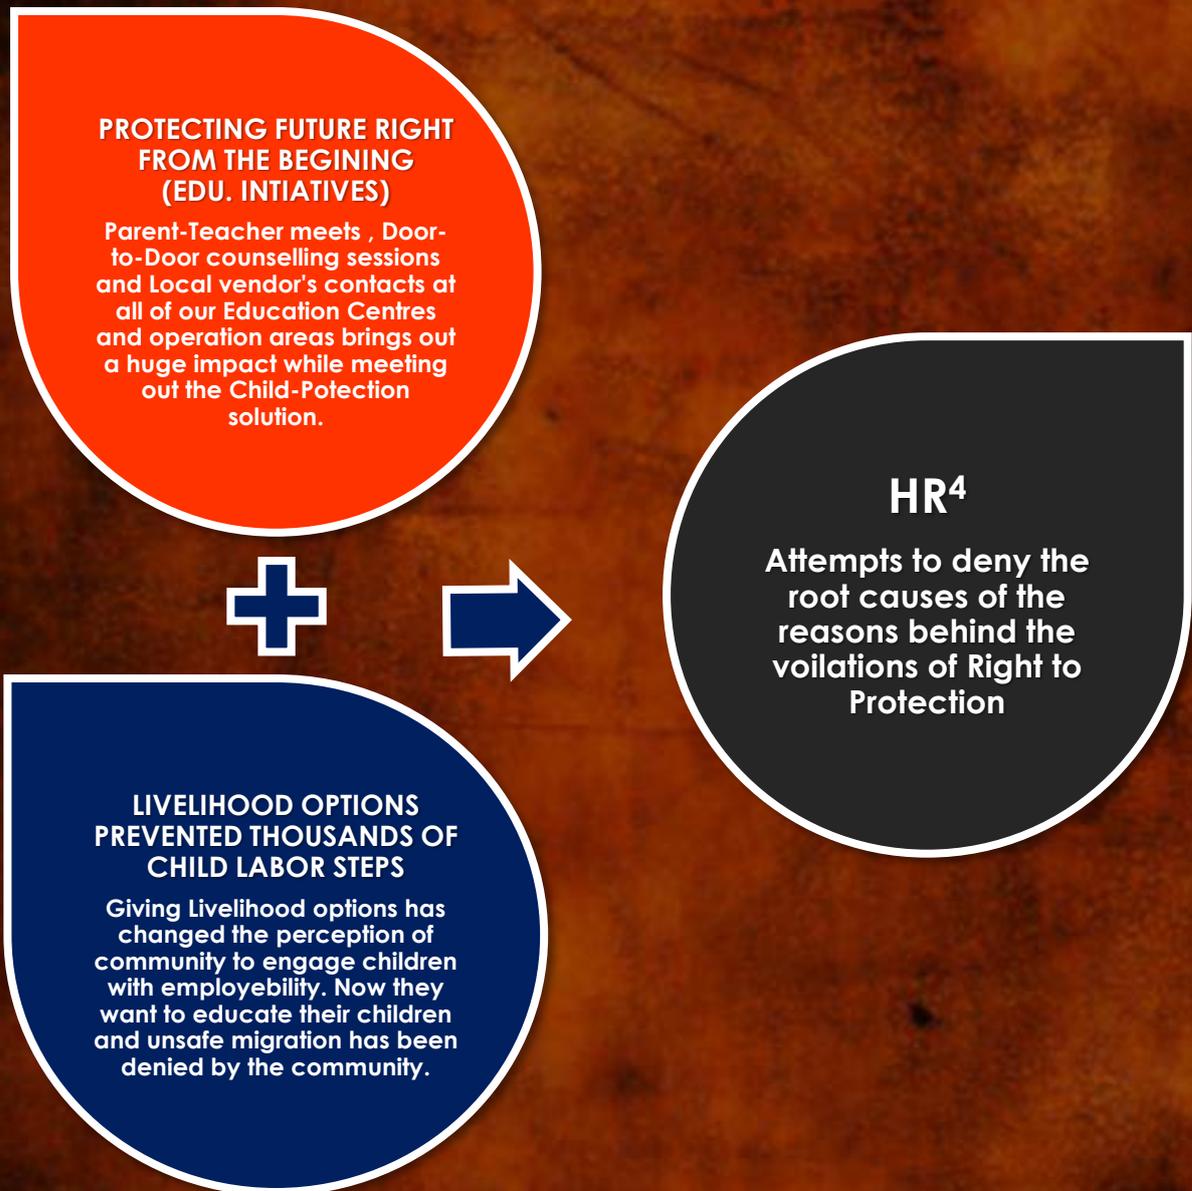

Think Tank against evils of child rights

Collective efforts towards Preventing cross border bride and prostitution trafficking

INTERLINKED STRUCTURE OF HR⁴ WITH OTHER INITIATIVES

HR⁴ INITIATIVE'S IMPACT 2015-16

105

Children has been safe returned to their families

13726

Persons were outreached through door-to-door contacts

06

Children were sponsored for a year to pursue their academic life

1265

Hours of one-to-one community contact

314

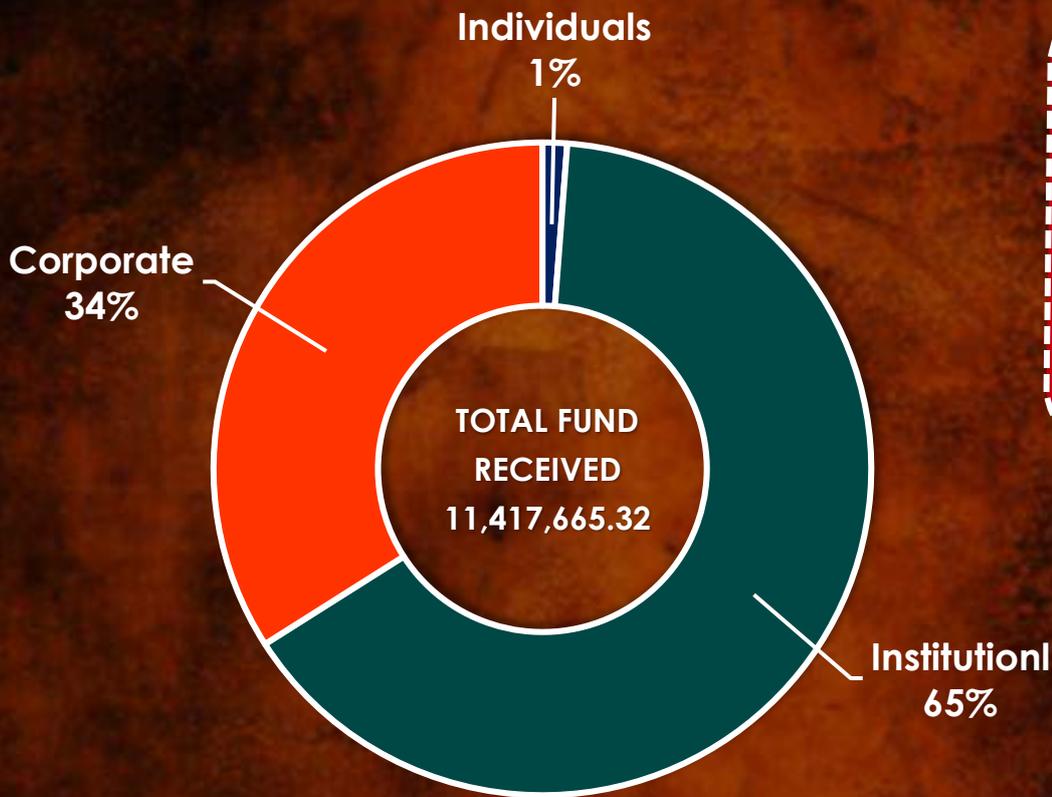

Children has been protected from sexual and various kind of abuses and sent to their home by counselling their families

What's next?

In the coming year, we plan to drive improvements towards more cost-efficient technologies for the child-protection development. We have come to understand that involving the young leaders from communities around the local, national and globe can bring a massive change to address the entire picture for resolving the child-protection issues. So furthermore, we will be focusing on mobilizing Change Makers in the communities who can lead the issues related to child-protection efforts to a long-term end. Also, we hope to connect more NGOs, INGOs and government networks across India & Nepal to reach the last hopes and address the policy makings at the central level.

INCOME AND GROWTH

90%

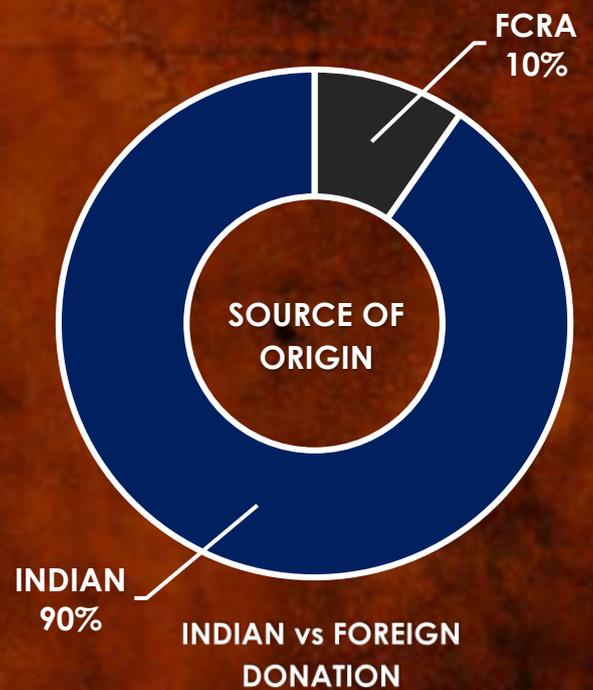

Fund raised through Domestic Sources

88%

Spent on Programmes

34%

Fund raised through Corporate Sources

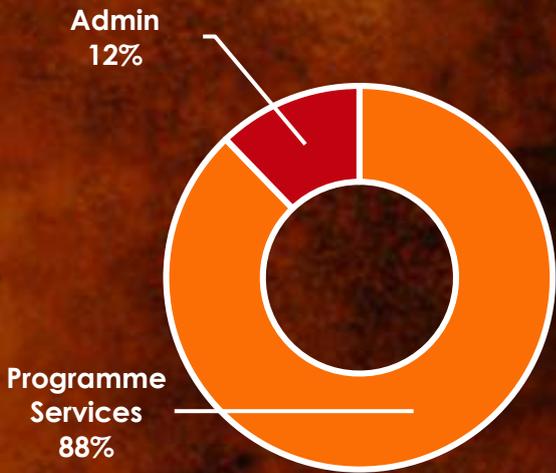

This year, Foundation grants accounts for 65% of our total income in addition to corporate sponsorships which is 34%.

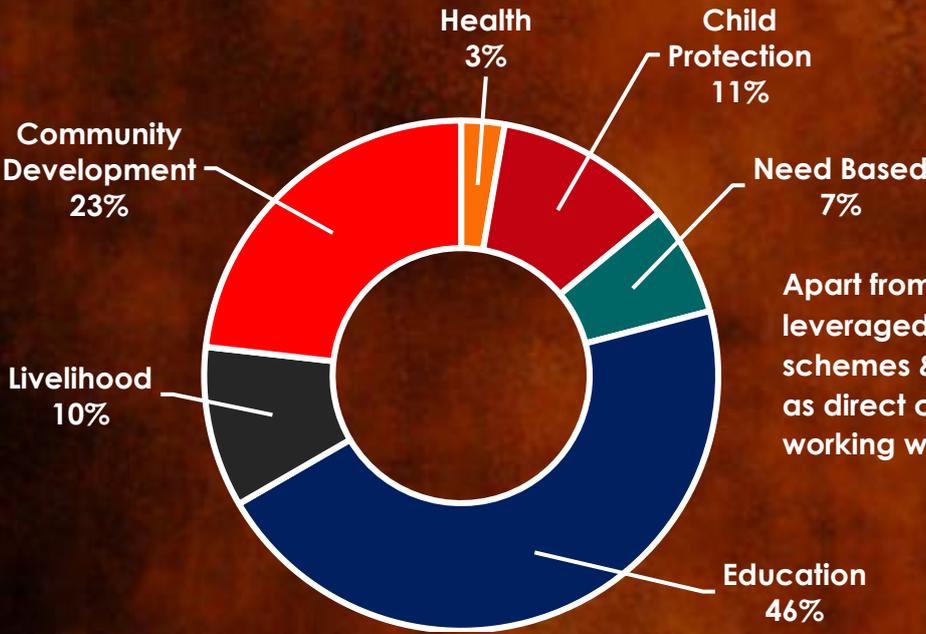

EXPENDITURE

93% of our total fund utilization went towards execution of our five major categories. Our funds go significantly to our programmes to increase quality of impact and the scale of our operations within our service areas. The complete audited financial statements are available on our website.

Admin vs Programme

Apart from DEHAT's budget, we have leveraged ₹6530710 from Government's schemes & ₹455,000 from communities as direct community benefits we are working with.

INTERNAL AUDIT
Conducted by an independent, external agency to ensure compliance with applicable regulations

BUDGETING & CONTROL
Budgets for every activity are submitted separately to the Donors and are monitored by Senior Level Management & Finance Team and implemented at least after two approvers.

REPORTING
We ensure monthly reviews of financial reports in order to identify errors and inconsistencies.

Accountability and Transparency

As a grassroots level organization that impacts each children's life right from the scratch and not just walk in for a couple of years for the sake of project implementation and walk out after its completion, that rather focuses on the sustainability of each initiative and makes its effort on community driven models. Each of our initiative be at small or large scale, would not be possible without the help and support of the wonderful people and organizations who stay involved with us.

First and foremost, we must recognize all our amazing DEHATians - our dedicated community Volunteers and passionate team for the unwavering commitment that drives the change we want to see in the world.

We also owe our gratitude to all our givers, from our Corporate Sponsors and Foundations, to the Individual Donors who contributed so generously to help vulnerable children.

Much gratitude also goes to our NGO partners who have shared their knowledge with us, and to our strategic advisors for the time and effort they have put in to ensure that our impact keeps growing.

The Next 4 Year

We plan our aspirations of Mission 2020 in a way that ensures our preceding year's plans remains in line with our long term 'change making' goals. Over the next four years, we will lay foundation for making long-term systematic change in the following different ways:

- ▶ Research in each category of intervention to refocus on development of the beneficiaries at individual level.
- ▶ Introduce and reach our interventions to the global ideators for ideating our efforts in more innovative, scalable and meaningful way.
- ▶ Technology adoption to track each beneficiary as well each DEHATian's performance at organizational level.
- ▶ Initiate long-term livelihood options for the parents of champs so that their children can focus and enjoy the life they deserve.
- ▶ Create at least one mother caretaker-cum-health facilitator to each household especially for making healthy and prompt deliveries (for preventing neo-natal and deaths infant mortality) and regularize day to health hazards (for bringing change in daily sanitation practices and appropriate immunization precautions) where doctors or even ambulance are not in their reach.

Focus on upholding the quality of impact with significant reach. Expansion and interlinking of the programmes all together with the same communities so that we can transform individual's lives comprehensively with our delivery model.

Create a volunteer-base structure of workforce that can contribute to and attain the beneficiaries individually.

Partner with national and global expert organizations in each category of our programmes where we can either deploy their best experimented methodologies or support them to complete their puzzle with our own scalable delivery model.

Increase the effectiveness and efficiency of our operations & delivery and stabilize the funding for each initiative.

Re-structure the organization and make 'DEHATian World' at large.

Expand the dedicated team for researching outcomes and develop scalable tools to each category of initiatives.

Start improving transferability of methodologies, knowledge sharing and regional practices with other organization across the globe.

HOW YOU CAN HELP

HERE'S THE DEAL FOLKS!

GEEKS

Are you any of the following?

- ▶ Content Editor
- ▶ Graphic Designer
- ▶ Blog Writer
- ▶ Application Developer
- ▶ Social Media Enthusiast
- ▶ Application Developer

Or someone just having good computer knowledge

If yes, do you want to utilize your skills to restore the basic rights of the children? Don't have time to travel or have a hectic home or work schedule?

Then worry not, DEHAT can be the best platform for you! We're here with a bunch of exciting options for volunteering us virtually. Contribute your valuable time and skills to bring lasting changes in the lives of underprivileged children at your own pace.

DEHAT's virtual volunteering options offers you flexibility in terms of space, time and location. Choose any option that suits your specialization! All you need is:

- ▶ A computer
- ▶ An internet connection
- ▶ Passion & dedication to make a difference

JOBSEEKER

Would you like to:

- ▶ Manage an organization that implements & supports numerous initiatives in the variety of categories.
- ▶ Initiate and negotiate strategic alliances with media, corporate brands, start-ups and joint ventures in key overseas markets
- ▶ Build, develop and motivate a team of professionals
- ▶ Strengthen government systems
- ▶ Mold the values of a new generation of Indians

If yes, at DEHAT you can do all this and more! Be a hand for the DEHAT family that stands for making lasting changes and benefitting millions of underprivileged children across remote and vulnerable rural areas of India. Use your professional skills with our numerous initiatives in categories like Child Protection, Education, Health and Livelihood.

FUNDRAISER

Are you any of the following?

- ▶ A grant or concept writer
- ▶ Expert at online crowdfunding platforms or at offline event organizing
- ▶ An individual dedicated towards giving back to the society

You can act on your conviction for DEHAT's initiatives. No matter where you are and what amount of time you want to dedicate, spread the wonderful world of DEHAT anywhere and anytime! Help us at mobilizing and raising funds for our numerous of initiatives in different project categories and restore the basic rights

of underprivileged children! All you need is:

- ▶ A computer
- ▶ An internet connection
- ▶ Passion & dedication to make a difference

HOW YOU CAN HELP

HERE'S THE DEAL CORPORATES !

Corporate Social Responsibility

Why partner with DEHAT?

We are transparent:

All of DEHAT's financials are openly accessible to the public. As an organization, we are mandated to carry out an annual external financial audit.

We care about your resources:

We manage and monitor our projects in a strict manner to not only ensure the efficient utilization of funds, but also to make them effective and lasting for the beneficiary. Additionally, our projects are regularly assessed by professionals to measure the gaps between the benchmarked plan and actual progress. Meetings with project staff, parents, children and community groups begins from the implementation areas itself and enables us to apply our management process towards the projects.

We reach out to what's usually ignored:

Focusing on mobilization and empowerment of the communities enables us to access to the root causes of the developmental issues (such as non-functioning government schools, unemployment of parents, non-operational healthcare centers, child & human trafficking) which keep children away from their rights. We are dedicated to creating sustainable change.

Partnering with DEHAT enables you:

- ▶ To be a part of an endeavor that makes lasting changes
- ▶ To heighten your brand image and makes your organization a socially conscious element in the grassroots communities
- ▶ To give employees the chance to make a difference

DEHAT IS A PLATFORM WHERE YOU CAN CHOOSE FROM A HUGE RANGE OF PROJECTS THAT SUITS YOUR ORGANIZATIONAL GOALS.

Be it at Education, Livelihood, Health, Child Protection, or Women Empowerment at DEHAT, success in each category is required to see a lasting change for children.

For more information on partnering options with DEHAT, visit DEHAT's Help page on the website or to meet a DEHAT representative, please contact the DEHAT head office or write to us at joinus@dehatindia.org.
